Part A: Pupil premium strategy plan

Statement of intent

Our philosophy

At Stradbroke Primary School we value the abilities and achievements of all our pupils and are committed to providing each pupil with the best possible environment for learning. We recognise that each child is unique and will have different needs, which may well vary throughout their time in the school. We have planned to spend our Pupil Premium funding to try to give them all the support that they need to reach their potential.

Overcoming barriers to learning is at the heart of our Pupil Premium use. We understand that needs and costs will differ depending on the barriers to learning being addressed. As such, we do not automatically allocate personal budgets per pupil in receipt of the grant. Instead, we identify the barrier to be addressed and the interventions required, whether in small groups, large groups, the whole school or as individuals, and allocate a budget accordingly.

We also recognise that pupil premium children may excel academically and funding should be utilised to stretch and challenge pupils.

Providing opportunities for children to experience culture and have experiences to develop their awareness of the wider world is of fundamental importance.

Our priorities

Our priorities are as follows:

1. Ensuring that there is high quality teaching and learning in every class.
2. Closing the attainment gap between disadvantaged pupils and their peers.
3. Providing targeted academic support for pupils who are not making the expected progress.
4. Addressing non-academic barriers to attainment such as low self-esteem and confidence, mental and physical well-being, attendance and behaviour.
5. Ensuring that all disadvantaged pupils are fully included in the life of the school.
6. Providing cultural experiences for pupils to develop their knowledge, experience and understanding of the Curriculum.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Children will achieve good academic outcomes – in reading, writing and maths.
2	Limited experiences leading to poor cultural capital
3	Low self-esteem
4	Attendance and punctuality
5	Children will be mentally and physically healthy

6	Children will be involved in all aspects of school.
7	Self-regulation, behaviour and social awareness.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
1. Children will achieve good academic outcomes.	<ul style="list-style-type: none"> Children will be fluent readers and have an extensive vocabulary that they can use to express themselves both verbally and in writing. They will be fluent mathematicians.
2. Children will have greater cultural capital.	<ul style="list-style-type: none"> Children will learn about the world around them including their local area, their own country and further afield. They will have a broad knowledge of STEM, the humanities and the arts-including opportunities to perform.
3. Children will be confident and boost self-esteem	<ul style="list-style-type: none"> Children will talk positively and with conviction about themselves and their place in society.
4. Children will have maximum time in their educational environment.	<ul style="list-style-type: none"> Attendance and punctuality rates for pupils eligible for PP are consistent and high.
5. Children will be mentally and physically healthy.	<ul style="list-style-type: none"> Children will understand the importance of mental and physical health and understand some strategies to support both of these areas. Sensory room is redeveloped.
6. Children will be involved in all aspects of school.	<ul style="list-style-type: none"> Children will be able to participate in all areas of school life and extracurricular opportunities.
7. Self-regulation, behaviour and social awareness.	<ul style="list-style-type: none"> Children will be able to self-regulate and make appropriate choices.
