

SEN Parent Testimonial

My daughter was diagnosed with ASD at the age of 3 years, she has been a student at Stradbroke primary since Reception year. The school and teachers supported an EHCP application and the process was thoroughly explained.

The school and all of the staff members have been very supportive and encouraging towards our daughter. She is included in all aspects of school life, she has made lots of friendships and loves coming to school. Her learning needs are met and she is progressing academically. This is due to the dedicated and understanding teachers that are able to adapt lessons to suit her learning needs.

There are not enough words to describe how amazing the SENCO is. She is knowledgeable, dedicated, caring, understanding, encouraging and patient. She puts 100% into all of the children, I feel she goes above and beyond for all the SEN children. She provides constant updates on how my daughter is doing, she is always happy to answer questions or provide information.

I wanted to take this opportunity to say thank you to the school and its staff for everything they have done for my daughter since she started. Not only have they helped her academically, but have aided in her growth into a confident, happy and positive child.
