

## SEN Parent Testimonial

My son started Stradbroke Primary School in reception. The school were amazing at helping get him an EHCP, everything was explained to me step by step.

The support and encouragement my son has received from his first day and everyday since is outstanding.

This September my son moved up to the next class, I was very nervous as he doesn't cope well with change, but the teacher and the teaching assistants have helped him settle and are always positive and nurturing. I was worried about the change in work and increased time he will be required to sit at a desk, but his work is tailored to meet his needs and he has surprised me how well he has coped with the changes.

Thanks to the staff at Stradbroke Primary School my son is happy at school, making friends, and he is keen to learn. As a family we are very proud of him and very thankful to all the staff for their continued dedication and support.
